

PAC OIL: THE #1 CHOICE FOR PSA OIL MIST INJECTION SYSTEMS

PAC OIL KEEPS YOUR SYSTEM IN TOP SHAPE AND RUNNING SMOOTHLY

PAC OIL, a proprietary oil blend, is the ideal lubricant for the Precision AirConvey (PAC) EnviroPulse Oil Misting system. PAC OIL is formulated to keep your EnviroPulse system in top shape, ensuring your system's longevity and continuous high-level performance.

- Clear, colorless, and odorless
- Blended to the ideal viscosity for oil mist injection
- Chemical balance is perfect for your system
- Odor-free, neutral formula leaves no trace of residue behind
- Economical, with money-saving bulk buying options
- Automatic ordering saves time and assures steady supply

PAC's exact sourcing and blending standards mean the first drop of PAC OIL is the same as the last.

PAC OIL can also be used with any manufacturer's oil mist injection system.

Using PAC OIL saves you time and money.

Available in:

- 5 Gallon Buckets (24 on a skid)
- 55 Gallon Drums (1 to 4 drums on a skid)
- 275 and 330 Gallon Recyclable Totes — Recyclable totes are a one-way shipment. To recycle totes, call the National Container recycling number on the tote
